(If you have a co-op or supply store that is cheaper, please feel free to purchase the supplies at the lower price.)

These art supplies are the same for all art levels. Art 2-4 will always use the 18 x24 paper.

For the classroom:

Pencil sharpener

Tissues (A box for the class should be in the room at all times)

Paper Towels

Masking tape- (1 inch office supply) , 4 rolls per student – this is used to tape down work and for sculpture. Get this at your school co-op as it will be cheaper.

Compass (one for each student)(55437-0000) This is a safety compass. \$1.53 per item. Page 361

Old magazines for pictures and collages

Cardboard – (I save some boxes from the grocery store and let the kids cut these up. The cardboard is for 3-D construction)

Scissors (one per student)

Stapler and staples (the stapler must be able to open to lie flat so that staples can be put into the wooden board) One for the room.

Clear package tape – 2 inches wide/2 rolls per student. This is used for sculpting. (Dick Blick calls it book tape 2 inches / (23021-1002) \$7.57 page 193.

Glue – sticks or liquid – Elmer's and rubber cement.

Student drawing/painting board- A board to tape work to. You can get a large form core board from Hobby lobby for \$6.00 per sheet. This can be cut in half with a knife. Price per student is then \$3.00 a piece. Only one is needed per student. I use a hardboard that is 2 feet by 2 feet square. It comes to about \$1.50 per student. I call ahead to make sure they have some cut. (This is used to keep the work flat. I use the hardboard as it lasts longer – doesn't dent. The student can tape down paper for drawing or painting.) Only one board is needed per student.

1 large package of Styrofoam plates (used as paint pallets and for printing) I use the Styrofoam to make carved stamps and palettes.

Gallon ice cream pails or butter tubs (used for water – should have 1 per every 2 students)
