

## **GWN Reimbursement to schools for ITV teaching staff**

**“A” Rate Reimbursement:** \$8,000 is paid back to schools (by GWN) who provide a teacher to GWN but do not have students of their own in the class and the higher reimbursement rate (and the class itself) is deemed necessary by the GWN director.

**“B” Rate Reimbursement:** \$3,000 is paid back to schools (by GWN) who provide a class to GWN and either have students of their own in the class or have the potential to do so during the regular school day.

**“C” Rate Reimbursement:** \$1,500 is paid back to schools (by GWN) who provide a class to GWN (with or without their own students in that class) but the remote site numbers total 5 or less.

**"Per Period Contract":** \$3,000 stipend + plus standard GWN stipend is paid directly to a teacher for teaching to GWN students. No reimbursement is paid to the sending school and no tuition is charged for students in the sending school location.

**“NO” Reimbursement: (Point to Point)** 0\$ reimbursement by GWN and teacher is not paid a GWN stipend. There are situations where it is in the best financial interest of both the schools and GWN to provide or receive a point to point class that is “off the schedule”. The class needs to be approved by the GWN director to insure that there are adequate resources on the network.
